

Rectangular Steel Picnic Table Perforated Pattern

These perforated rectangular steel picnic tables, available in 4', 6', 8' and Universal Access models, are a popular addition to indoor and outdoor environments. The porous perforated surface pattern of the table and seats discourages the collection of water, and the weather-resistant powder-coated finish keeps the table protected from rust and corrosion. The convenient walk-through design encourages maximum user accessibility, inclusion and comfort. The all-steel MIG welded frame is constructed with 2-3/8" steel tubing, reinforced with 1-1/16" O.D. support braces for maximum stability. Colors shown below.

Square Steel Picnic Table Perforated Pattern

Highly durable outdoor tables are a great way to enhance facility aesthetics and provide the opportunity to exceed guest expectations. The convenient walk-through table design ensures easy user access when entering and exiting the bench seats. This 46" square picnic table is constructed with commercial grade steel, featuring a powder-coated 1-5/8" O.D. tube frame reinforced with 1" O.D. cross-brace. The classic style perforated steel seats and table tops are strong, economical and finished with a durable, weather resistant, UV stabilized thermoplastic finish. This picnic table comes with a 1-9/16" I.D. umbrella hole. Umbrellas sold separately. ADA accessible models are available.
