## Brooklyn Recycled Plastic Bench

The Brooklyn recycled plastic outdoor bench features arched style frames that form a peaceful and inviting impression. The recycled plastic planks are virtually maintenance-free. They do not need to be sealed, painted, or stained. UV protection ensures they will stay beautiful, much longer than wood. Any marks from pens and markers can be easily washed off. Paint will not bond to the surface and can be removed with sandpaper. Surface cuts or scratches can be simply ironed away.
