

Heavy-Duty Precast Concrete Trash Receptacles

This attractive and stylish waste receptacle will handle nearly 40 gallons of waste, yet takes up very little room itself, making it ideal for both indoor and outdoor use. Heavy-duty concrete construction deters theft and vandalism. The optional custom-fit rigid plastic liner is sold separately.

The spun aluminum lid is secured with vinyl coated cable, and can be powder-coated with an attractive complimentary color. This Precast Concrete receptacle is available in the Exposed Aggregate color options shown below, and is finished with a water-repellent sealer treatment for ultimate weather resistant durability.

CONCRETE TRASH RECEPTACLE WITH SPUN ALUMINUM LID

24 Gallon ADA Accessible Square Trash Receptacle

This stand-alone, ADA-compliant Auto Attendant® receptacle encourages proper litter disposal at the gas station pump island. The 24 gallon square concrete trash receptacle accents store and gas station entrances, while perfectly complementing the island units. The aluminum top has an 8" opening for easy disposal and shields the exposure of waste contents. Please visit www.belson.com for additional upgrade color options.

Single or Double Auto Attendant®

Specifically designed for gas station islands and convenient stores, the Auto Attendant® is a bold, convenient addition saving facility space and customers time. Combining a trash receptacle, self-serving windshield washing pod and towel dispenser maximizes services at the pump. The double Auto Attendant has two self-serving windshield washing stations and towel dispensers on both sides. Please visit www.belson.com for additional upgrade color options.
