## StoneTec® Waste Containers

StoneTec® 30 gallon waste containers provide an upscale alternative to concrete or aggregate-paneled waste containers. Made from a new polymer/concrete mix, these containers are more durable and stronger than traditional concrete waste container units. With five designer earth-tone colors to choose from, StoneTec® waste containers will enhance any environment. The containers use standard 30 gallon trash bags and convenient bags slots hold the bags firmly in place. The lid & liner are included.

### STONETEC® WASTE CONTAINERS WITH LID & LINER

DC-722 \_\_\_ 30 Gallon (118 lbs) \$718.00

(Prices F.O.B. Factory)

## Geocube Recycling Containers

Compact, fire safe, steel-constructed recycling containers, Geocubes are the perfect addition to any recycling program. Item specific decal labels and lid openings encourage the proper disposal of recyclable materials. Piano hinged lids further maximize maintenance efficiency.

All Geocubes come standard with two decals as listed, alternate decals are available. The included die cut transfer decals are bright white vinyl and designed specifically for easy application.
